## SUMMARY

Dynamic software engineer with 3 years of experience: 2 years in RPA and 1 year in React.js front-end development. Skilled in automating complex processes, enhancing operational efficiency, and creating responsive web interfaces. Strong problem-solving abilities and adept at analyzing business requirements to deliver innovative solutions. Experienced in agile environments and cross-functional team collaboration.

## SKILLS

HTML | Cascading Style Sheets (CSS) | JavaScript | React.js | Web Development | HTML5 | SQL | MySQL | Bootstrap | Python (Programming Language) | Git| Automation Anywhere | power Automate

## WORK EXPERIENCE

Front-End React.js Developer

Tata Consultancy Services, Trivandrum

- Developed and Maintained Web Applications:** Created responsive and interactive user interfaces using React.js, collaborating with UX/UI designers to implement design specifications.
- Optimized Performance:** Built and optimized reusable components for maximum performance across various devices and browsers, enhancing user experience.
- Integrated APIs:** Connected front-end functionalities with RESTful APIs, ensuring seamless data flow and coordination with back-end services.
- Ensured Code Quality:** Participated in code reviews, maintained high code quality, wrote clean, maintainable, and efficient code adhering to best practices.

Feb 2023 - Mar 2024

RPA Developer

Tata Consultancy Services, Kochi

- Designed and Developed RPA Solutions:** Utilized Automation Anywhere for process automation, workflow automation, and data extraction.
- Script Development and Maintenance:** Created and maintained automation scripts, workflows, and bots using Automation Anywhere's scripting language.
- Testing and Debugging:** Conducted comprehensive testing, debugging, and troubleshooting to ensure functionality and performance of automation solutions.
- Deployment and Support:** Deployed and monitored RPA bots in production environments, providing ongoing support and maintenance.
